

The Kiosk Redefined

The new 15" Dot is the culmination of extensive industry and market research, and countless design refinements. The 15" Dot is one of the most powerful, versatile, and compact kiosks available, making it ideal for almost any environment.

Performance

- Atom™ N450 1.66 GHz 64-bit processor.
- Windows Standard Embedded or Compac
- Supports up to 2 GB DDR memory.
- Full-screen DVD-quality video.
- High quality stereo speakers.

Screen

- Industrial-grade 15" LCD.
- 1024 x 768 XGA resolution.
- High-brightness screen.
- Durable resistive touchscreen.
- Wide viewing angle.

Form Factor

- Lightweight, thin, ergonomic design.
- Optimized to minimize eye and hand strain.
- Optional, tightly integrated peripherals.

Optional Integrated Peripherals

- 3" high-speed thermal printer.
- Swipe-style card reader.
- Wi-Fi 802.11 g/n and 3G connectivity.
- Omni-directional barcode scanner.
- CCD reader for 2D barcodes and imaging.
- Navigational thumbwheels.
